Steve came out to do a regular service on our air conditioner today. He is pleasant, professional and courteous. He found an issue with the unit and even went back to the shop to get the parts. He didn't leave us to just heat up. We are so happy and grateful that Accurate has employees that are willing to go above and beyond. Thank you so much.

I had a wonderful experience with Steve Oskirko from Accurate. He took the time to explain things to me, acted professionally at all times and was respectful of our COVID concerns. I will definitely be signing up for their annual maintenance program. Great job!

Steve actually arrived a little early and was very personable and professional. Above and beyond explaining how the system operates, what to look for and exactly what he would do and exactly what he did. Top notch service, definitely recommend.

Excellent technicians. Professional, friendly, polite and knowledgeable. Explain all activities in detail. Recommend any repairs needed as well as estimated cost. That are the best.

My heat stopped working unexpectedly during this recent cold spell. Accurate was the only company that could come out on the same day. They text before arrival with photos of the technicians which I appreciated. The technician Jakob was so professional and thorough with determining the issue. He ensured my heat was working until he and the manager could come the following day, when they were able to resolve it completely. I am so grateful for the responsiveness and follow up. Thank you Jakob and James!

The furnace at my office stopped blowing hot air on a 40 degree day. I called numerous place that couldn't assess the situation for at least a week. Called Accurate and they said a tech could be out in a few hours. The tech actually came before that time frame. Got us up and running, heat blowing and fixed the issue. Very courteous and professional and the text/email updates are great! Would highly recommend this company to anyone looking for services!

We had an annual mini-split tune-up done. Beth (the office manager) is excellent and it was easy to set up an appointment. Beth also kept us updated regarding arrival times, which was quite helpful. The techs, John and Jake, were fantastic. They both wore masks which made us feel comfortable, gave special attention to keeping things tidy, were very polite/friendly, and made sure all concerns were addressed. Impressive service!
